

Balanced Power Technologies + Equi=Tech

JAN 2008--Balanced Power Technologies is proud to announce we are now working in co-operation with Equi=Tech to promote the use of balanced power and enhance our product development. As "The Pioneer of Balanced Power", Equi=Tech's expertise (since 1992) in balanced power is second to none. We look forward to working with them on our continual quest for the highest performance possible in power line conditioning.
